INDEX()		index()	update()	update()	Index –list,str update-dic,set
INSERT()		tittle()	values()		
POP()		strip()	pop()	pop()	pop–list,dic,set
REMOVE()		startswith()		remove()	remove–list,set
REVERSE()		split()			
SORT()		replace()			
		lower()			
		jion()			
		isalpha()			
		isalnum()			

Data types

Int

Float

Boolean

Complex

String

List

Tuple

Dic

Set

Frozenset

```
=====
```

List

append()

```
variable.append()
```

Same prathi method syntax ede like append place lo adiyithe chestham ooo adi place cheyalii like denilo ayina list lo ayina tuple lo ayina set lo ayina dic loayina string lo ayina what ever it same syntax
